

SEMINARS BUILT TO ORDER

TOM FEIZA, Milwaukee's "Mr. Fix-It,"

has helped millions with up-to-date advice and technical information on a broad range of home-related topics. He maintains a high profile with his live radio call-in show, weekly newspaper column, and frequent television appearances.

Tom also takes this show on the road via interesting and informative seminars. Combining more than 30 years of building management experience with his own hands-on home repair expertise and a dash of humor, Tom delivers presentations that are perfect for home shows, homeowners, spouse programs, apartment associations, resort owners, retailers, and on-site retail events.

Every seminar includes prizes and more than \$200 worth of free samples for the audience. Choose from the following topics—or have Tom create a customized presentation for your group.

SEMINARS BUILT TO ORDER

JUST FIX IT—THE ABSOLUTE BEST REPAIR PRODUCTS

Tom solves the most common fix-it problems using state-of-the-art tools and techniques. Learn to achieve results you never dreamed possible. Enjoy product samples and hot repair tips you can use instantly. Tom's years of hands-on experience enliven this presentation with great fix-it stories, repair tips, humor and practical information.

PAINT LIKE A PRO—PAINTING SECRETS OF THE PROFESSIONALS

Toss that roller tray! Forget the ladder! It's easy to achieve professional results once you know how to choose and use the right painting gear. Make interior and exterior paint jobs look and last as if a pro had painted them. Learn how to treat and maintain wood, aluminum siding, trim, and other exterior features. Discover the fastest way to remove caulk, a quick fix for rotting wood, and how to solve mold and mildew problems.

HOW TO OPERATE YOUR HOME

A home is a complicated set of systems and parts, and every homeowner faces many of the same questions and concerns. In this session, Tom provides the "must know/must do" information needed to keep that home running properly, safely and efficiently. This is not a fix-it seminar but rather an overview of basic systems from roof to basement.
